PROFESSIONAL EXPERIENCE

Software Development Trainee   **Jan 2024 – May 2024**
Etelligens Technologies

- Developed visually appealing and user-friendly websites by implementing modern design techniques and responsive web development practices
- Ensured optimal user experience across different devices, improving accessibility and usability.
- Utilized HTML, CSS, and JavaScript, React and NextJs to create interactive elements and enhance website functionality.

PROJECTS

Oxpitan   **Mar 2024 – Apr 2024**

Built a responsive, user-friendly website using **Next.js** a non-profit organization, enabling easy contribution to social causes

- Designed and implemented a comprehensive website architecture with Next.js
- Designed the website architecture with a focus on content management, utilizing a data-driven approach for effortless updates
- Created a visually appealing **UI design** leveraging Styled Components and React Bootstrap, ensuring a seamless user experience across devices

WitQuick Quiz   **Jan 2024 – Feb 2024**

Interactive quiz application assesses knowledge with an engaging user experience

- Developed a **Single-page React application** (SPA) utilizing functional components for a seamless user journey.
- Implemented state management with **React hooks** to dynamically update quiz questions and user responses.
- Employed useEffect hook to manage side effects like fetching questions from the Open Trivia Database API.

Food & Drinks |Link   **Sept 2023 – Oct 2023**

Leveraging web development expertise, I constructed a user-centric website for a restaurant, fostering a strong online presence.

- Implemented a responsive website framework to ensure optimal display and user experience across various devices (desktop, mobile, tablet).
- Incorporated user-friendly features like an interactive menu and location map, utilizing **JavaScript** libraries for enhanced user engagement.
- Developed and integrated an online reservation system using backend technologies, streamlining the booking process for dine-in customers.
